Mario Vallejo

603 W Arlington Pl, Apt 2 - Chicago, IL 60614

mario@vallgroup.com - 954.607.0783

Interested in contract to hire opportunities with creative and fast-paced agencies looking for a developer that can take on challenging projects. I have experience working with designers, project managers, and other developers as a team to deliver projects in a timely manner and within budget. I have worked with multiple agencies in dev roles ranging from Architect to Developer. I am organized, manage time well, and always document my code.

LANGUAGES AND LIBRARIES

PHP, MySQL, MongoDB, JavaScript, jQuery, HTML5, CSS3

CMS

Wordpress and Joomla!

EXPERIENCE

Programmer, Vallgroup

Chicago, IL - November 2012 to Present

Lead the development and maintenance of Premise WP, an open source framework for Wordpress developers.

Lead the development and maintenance waitlistapp.io, an app that allows restaurants to manage their waiting list and users to put their name on the restaurant's. list.

Lead the development and maintenance of boxapp.io, a software that builds 3D Renders out of any blueprints, images, or videos.

Work with marketing agencies on a contract capacity taking on new challenges with every project.

Freelance Developer

Washington, DC - January 2008 to January 2013

Worked with a handful of marketing agencies around the Fairfax, VA area as a freelancer, building websites in Joomla and Wordpress.

Built my own app for a financial management tool that helped users plan/manage their finances based on cash flow.

Marketed myself as a web developer to source my own clients by attending and becoming part of BNI networking group in Fairfax, VA.

built custom themes and plunge for Wordpress and Joomla.

Fluent in English and Spanish.
